Explanation of Responses:

- The option exercise price per share is \$50.00, which is approximately 33% higher than the closing price of Vistaprint's ordinary shares on the NASDAQ Global Select Market on the date of grant (\$37.70).
- The value of this share option is intended to equal approximately the total value of all traditional share options that Vistaprint would have granted to the reporting person over a four-year period in the absence of this share option grant. As a result, Vistaprint's Supervisory Board has adopted a resolution stating that Vistaprint shall not grant any additional share options to the reporting person until 2016.
- The share option vests over a seven-year period from the date of grant, as follows: 6.25% of the original number of ordinary shares subject to the share option vests on the first anniversary of the date of grant. The remaining ordinary shares vest on a quarterly basis over the subsequent six years in tranches ranging from 1.56% to 10.94% of the original number of ordinary shares subject to the option.
- Each restricted share unit represents Vistaprint's commitment to issue one ordinary share.
- These restricted share units vest over a four year period: 25% of the original number of shares vest one year after the date of grant and 6.25% vest per quarter thereafter.
